

ViroTox Plus

A Companion of Toxic Management

Understanding Mycotoxins

Mycotoxins are secondary metabolites produced by certain moulds / fungi. Mycotoxicosis often causes less overt signs but is frequently associated with hidden losses due to immunosuppression, hepatic and renal dysfunction, poor health and reduced productivity. Toxins impair the function of vital organs such as the liver and kidney and negatively affect the poultry immune system and its natural defense mechanism.

ViroTox Plus – A Complete Solution

ViroTox Plus has an enormous surface area, enabling it to adsorb a wide range of toxins in the intestine. It is a multi-component toxin binder specially developed as a complete solution for mycotoxins and other feed-borne toxins. Its selected ingredients effectively bind a wide range of various toxins present in the feed, helping to protect bird health and performance.

Key features:

- ViroTox Plus formulated with selected high quality ingredients to perform as a broad Spectrum Mycotoxin absorbent in challenge condition.
- Its largest surface area to bind extreme & various toxins in wide range.
- The unique ingredients supports to control chemical toxicity due to pesticides & heavy metals.
- Selected silicates to adsorb both polar & dipolar Mycotoxins
- Maximizes Feed conversion & Improves overall performance
- Does not absorb vitamins, Minerals & other nutrients It reduces Mortality & Secondary bacterial diseases problem
- Protects the liver against the damage mobilizes the fat accumulated in the liver

Benefits:

- To adsorb a wide range of mycotoxins.
- To protect & rehabilitates the liver & kidney.
- To reduce immunosuppression caused by mycotoxin.
- To Improve birds health through increased resistance to disease .
- To improve the immunity & feed intake.
- It formulated with selected high quantity ingredients to perform as a broad spectrum.
- It supports to control chemical toxicity due to pesticides & heavy metals.
- To maximize feed conversion & improves overall performance.

Composition: Each 100 ml contains-

Di-Sodium EDTA	- 5%
Phosphoric acid	- 5%
Acetic acid	- 10%
Propionic acid	- 5%
Formic acid	- 2.5%
Fumaric acid	- 2.5%
Citric acid	- 5%
Copper sulfate	- 2%
MOS	- 10%
Calcium Propionate	- 10%
Azadirachta indica	- 5%
Milk Thistle (Silymarin)	- 5%
Andrographis paniculata	- 10%
Distilled water	- QS.

Dosage :

Poultry

1 ml per 2-3 liters of drinking water for 3-5 days or Advised by the registered veterinarian.

Pack Size: 500 ml

Manufactured by

SF No.396/1, Door no. 445/9B, Bathalapalli, Kosuvakatta Road, Moranapalli, Hosur,
Krishnagiri, Tamilnadu - 635109, India.
